## 8-29-2

# Premium Liquid Fertilizer

### GUARANTEED ANALYSIS

Total Nitrogen (N) .....	8.0%
5.1%...Ammoniacal Nitrogen	
2.9%...Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	9.0%
Soluble Potash (K <sub>2</sub> O).....	.0%

Derived from: ammonia, urea, phosphoric acid, potassium hydroxide

### PHYSICAL PROPERTIES

pH.....	6.12
Specific Gravity.....	1.36 @ 68°F
Density.....	4 lbs/gal
Salt Out.....	5°F

## GENERAL INFORMATION

LineDrive 8-29-2 is an entry level low-salt fertilizer solution. It is formulated to deliver a 50/50 ratio of ortho-to-polyphosphate for early season activation. Orthophosphate is the form of phosphate plants can absorb into the roots. LineDrive 8-29-2 mixes well with nitrogen, micronutrients, and crop protection chemicals. It can be safely placed in close proximity to the seed at planting and can also be foliar applied.

Fertilizers containing orthophosphate are recommended when immediate availability to the plant is desired. Premium grades include N, P & K. The potassium used in premium liquid fertilizers is low-salt potassium hydroxide helping prevent early season deficiencies.

## FEATURES & BENEFITS

### FEATURES

- Low-salt, chloride free & near neutral pH
- 100% water soluble
- 50% orthophosphate
- Non-corrosive

### BENEFITS

**Versatile Application:** Premium liquid fertilizers are recommended for seed-furrow placement on many crops for faster uptake of nutrients by the young root system.

**Entry Level:** Premium liquid fertilizers offer growers the benefits of a high orthophosphate fertilizer at an affordable price. Premium liquid fertilizers are ideal for growers switching from conventional to low salt starters.

**Environmentally Friendly:** When premium liquid fertilizers are banded, or placed in furrow or 2x2, nutrients are easily intercepted by roots. Fertilizer is not lost due to leaching or runoff.

**Improves Yields:** Premium liquid fertilizers provide seedlings with easy access to nutrients in early growth stages. Young, strong plants emerge earlier, roots develop faster, and plants mature more quickly, producing higher quality crops with top yields.

### FREQUENTLY ASKED QUESTIONS

**Q:** What is the premium blend of fertilizers from The Andersons composed of?

**A:** LineDrive 8-29-2 is a 50/50 ratio of orthophosphate-to-polyphosphate for early season activation.

**Q:** What is the salt index of LineDrive 8-29-2?

**A:** LineDrive 8-29-2 has a salt index of 17.5.

**Q:** How should I apply LineDrive 8-29-2?

**A:** LineDrive 8-29-2 can be applied by banding near the seed row, in-furrow, surface dribble, strip-till, or through irrigation.

**Q:** Can I mix LineDrive 8-29-2 with other products?

**A:** Yes, LineDrive 8-29-2 mixes well with nitrogen, micronutrients, and most common crop protection chemicals.
