# Get to Know Us

## Promoting Sustainable Agriculture Methods

*We integrate innovation and sustainability. Our solutions drive an eco-friendly, productive future of farming.*

At AgTek360, we are dedicated to driving innovation in sustainable agriculture. Our solutions enable farmers to implement eco-friendly practices that regenerate soil health, conserve water, and protect local ecosystems while maintaining productivity and profitability. We provide the technology and knowledge you need to grow green.

- ✓ **Eco-friendly nutrient solutions**
- ✓ **Regenerative agriculture promoters**

## Experience Agricultural Excellence

### Why Choose AgTek360?

#### Sustainable Practices

Committed to sustainability. Our solutions reduce environmental impact and promote soil health.

#### Cutting-Edge Technology

Leading agricultural innovation. Our products integrate the latest agritech, addressing modern farming challenges.

#### Global Reach

Our tailored solutions expertly address local challenges while positively impacting global agriculture

# Energize - Stubble & Trash Digester

Energize – Stubble & Trash Digester is formulated to accelerate post harvest decomposition of crop trash and other biodegradable soil residue.

Increasing crop residue decomposition can aid in restoring soil biomass, decreasing the potential for soil borne diseases, improving nitrogen availability and improving overall natural plant protection.

**Promotes Soil & Plant Health**  
**Aids in Building Soil Biomass**

**Reduces Nitrate Leaching**  
**Residual Long Lasting Benefits**

## Composition:

Energize – Stubble & Trash Digester is an all-natural micronutrient and bio-stimulant.

## Benefits:

- Stimulates the growth of indigenous soil microbes
- Accelerates natural biodegradation of crop residue
- Reduces the potential for disease
- Aids in nutrient recycling
- Does not contain chemicals and will not desiccate canola seedlings
- Aids in building soil biomass
- **Safe** – requires only a minimum of safety equipment
- **Residual** – provides continuing, long lasting benefits
- Reduces nitrate leaching
- Promotes both soil and plant health

## Application Details

Energize – Stubble & Trash Digester can be safely blended and applied with both selective and non-selective herbicides and other chemical and non-chemical inputs. It is water soluble and is applied in liquid form using conventional application methods such as a ground sprayer, spreader, etc.

- Typical application rate is 1 to 2 litres per acre.
- Rates may vary with environmental conditions, amount and type of trash, and other biodegradable components present
