

Innovating Agriculture,  
Empowering Farmers,  
Leading the Future.

### Our 360 Approach

At the heart of our 360 approach is the carbon cycle — the cornerstone of sustainable farming. From photosynthesis, where plants capture atmospheric carbon dioxide, to the decomposition of organic matter, which returns nutrients to the soil, every stage is vital for soil enrichment and ecosystem health.

Our crop enhancement products optimize this cycle by promoting plant development and increasing organic carbon in the soil. By integrating humic acids, beneficial microbes, and specialized plant extracts, we improve soil structure, boost microbial activity, and enhance the soil's capacity to store carbon. These efforts contribute to long-term environmental resilience and a carbon - positive future.

### Sustainable Productivity

Regenerative agriculture isn't just about environmental stewardship — it's a pathway to increased productivity. Healthier soils result in more resilient crops, better water retention, and higher yields. AgTek360's solutions, crafted with cutting-edge technology and backed by expert support, empower growers to adopt regenerative practices without compromising profitability.

Our products are designed to optimize nutrient uptake, enhance crop resilience against environmental stressors, and improve germination and seedling vigor. By addressing the unique challenges of modern farming, we enable growers to unlock their farm's full potential while contributing to a healthier planet.

Join the movement and embrace the power of AgTek360's 360 approach to sustainable farming. Together, we can regenerate the soil, grow greener, and create a carbon - positive future for generations to come.

### Your Growth, Our Focus: Our Commitment to You

#### Expert Support

Our team of agricultural experts is here to support you at every step. From selecting the right products to implementing best practices, we're dedicated to your success.

#### Trusted Quality

With AgTek360, quality isn't just a promise; it's our standard. We rigorously test our products to ensure they meet the highest standards of efficacy and safety.

#### Partners in Growth

Your growth is our goal. We partner with you to navigate the complexities of modern agriculture, providing the tools and knowledge needed for your farm to flourish.

Innovating Agriculture,  
Empowering Farmers,  
Leading the Future.

In Partnership with

**NANO  
YIELD™**  
the nanotechnology company

[AgTek360.com](http://AgTek360.com)

is an authorized distributor of:

**NANO-YIELD**<sup>TM</sup>  
the nanotechnology company

### About NANO-YIELD<sup>TM</sup>

The seeds for Nano-Yield were planted in 1979, beginning as a sod farm. The introduction of nanotechnology into the family run business led to the company subsequently filing its first patent and the discovery of new liquid nano applications for agriculture which saw significant improvements over industry standards. Today Nano-Yield is known as the leading nanoliquid company for agricultural production worldwide.

**nanoCOTE CORE<sup>TM</sup>**  
Nano-coating technology  
for granular fertilizer

**NanoK<sup>®</sup>**  
Nanoliquid technology for  
improved potassium efficiency

**NanoN+<sup>®</sup>**  
Nanoliquid technology for  
improved nutrient use efficiency

**NanoRise<sup>®</sup>**  
Nanoliquid technology for  
improved nutrient use efficiency

**NanoStress<sup>®</sup>**  
Nanoliquid delivery of phosphorus  
& potassium at critical growth stages

**OmniPro<sup>TM</sup>**  
Crop protection enhancer

**NanoPhos<sup>®</sup>**  
Nanoliquid technology for  
improved phosphorus efficiency

Expert support, Trusted quality, Partners in Growth.
