About Soil Synergy

Soil Synergy was established to be a global leader in the manufacture and retail of premium humic products for North American and global growers. It is their vision to offer innovative, cost-effective, and sustainable products that empower their customers to maximize their soil's potential, boost profitability, and contribute to a more sustainable future.

CHARGE

Raw natural humic substances

Charge Coarse

Large raw organic humic allowing easy handling & slow release

Charge ES

Blend of humic & sulfur providing multi-year slow release

Charge Powder

Raw organic humic powder allowing excellent liquid extractions

Charge Turf

Raw organic humic small granule providing greater nutrient availability

ENERGY

Natural liquid humic formulations and specialty blends

Energy L-12 / L-24

Liquid humic extraction ideal for starter fertilizer applications. Available in 12% or 24% concentrations

Energy L-Fulvic

Highly-concentrated liquid fulvic designed to enhance soil & foliar nutrient applications

Energy L-Fusion

Liquid humic extraction designed for blending with fertilizers to increase efficiency

Expert Support, Trusted

SOIL SYNERGY

The Power of Humics

POWER

Manufactured granular humic substances and specialty blends

Power Coarse

Premium semi-soluble granular humic providing quick & long-term benefits

Power Turf

Premium semi-soluble granular humic providing quick & long-term benefits

Power Sea

Premium gypsum, seaweed & humic blend providing soil health & crop performance benefits

Power Gyp

Premium Granular gypsum supplying calcium & sulfur while improving soil structure & water movement

Power Sul

Premium sulfur, humic & gypsum blend improving soil health, nutrient availability & crop performance

SYNERGY

100% Soluble humic substances and specialty blends

Synergy 95

Soluble humic acid powder designed to produce a liquid concentrate or fertilizer coating

The Power of Humics

Quality. Partners in Growth.

Innovating Agriculture,
Empowering Farmers,
Leading the Future.

Our 360 Approach

At the heart of our 360 approach is the carbon cycle — the cornerstone of sustainable farming. From photosynthesis, where plants capture atmospheric carbon dioxide, to the decomposition of organic matter, which returns nutrients to the soil, every stage is vital for soil enrichment and ecosystem health.

Our crop enhancement products optimize this cycle by promoting plant development and increasing organic carbon in the soil. By integrating humic acids, beneficial microbes, and specialized plant extracts, we improve soil structure, boost microbial activity, and enhance the soil's capacity to store carbon. These efforts contribute to long-term environmental resilience and a carbon - positive future.

Sustainable Productivity

Regenerative agriculture isn't just about environmental stewardship — it's a pathway to increased productivity. Healthier soils result in more resilient crops, better water retention, and higher yields. AgTek360's solutions, crafted with cutting-edge technology and backed by expert support, empower growers to adopt regenerative practices without compromising profitability.

Our products are designed to optimize nutrient uptake, enhance crop resilience against environmental stressors, and improve germination and seedling vigor. By addressing the unique challenges of modern farming, we enable growers to unlock their farm's full potential while contributing to a healthier planet.

Join the movement and embrace the power of AgTek360's 360 approach to sustainable farming. Together, we can regenerate the soil, grow greener, and create a carbon - positive future for generations to come.

Your Growth, Our Focus: Our Commitment to You

Expert Support

Our team of agricultural experts is here to support you at every step. From selecting the right products to implementing best practices, we're dedicated to your success.

Trusted Quality

With AgTek360, quality isn't just a promise; it's our standard. We rigorously test our products to ensure they meet the highest standards of efficacy and safety.

Partners in Growth

Your growth is our goal. We partner with you to navigate the complexities of modern agriculture, providing the tools and knowledge needed for your farm to flourish.
