

Synergy 95

Synergy 95 is a 100% dry, soluble humic powder produced using our proprietary manufacturing process, setting it apart from most dry soluble humic products on the market. It is designed to efficiently produce both small and large batches of liquid humic solutions. Once mixed, the solution is compatible with many liquid fertilizers and micronutrients, acting as a chelating agent that improves nutrient uptake and availability throughout the crop's healthy and productive life cycle.

Content Analysis:

Humic Substances	97.6% Colorimetric
Humic Substances.....	54.8 HPTA
pH.....	9.6
Moisture	10%
Bulk Density	1,037 kg/m ³ or 64.73lbs/ft ³

Applications:

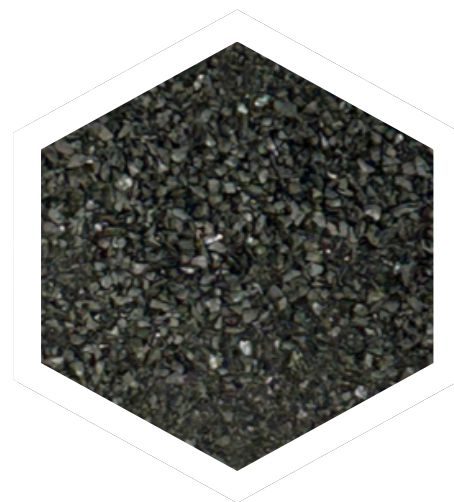

Application Method	Rate		
Irrigation Water	10L/ha	3.8L/acre	1Gal/acre
Foliar Spray	2.5-5L/ha	3-5L/acre	0.25-0.5Gal/acre
Pre-Plant In-Furrow	2.5-5L/ha	3-5L/acre	0.25-0.5Gal/acre
Side Dress & Strip Till	5-20L/ha	2-8L/acre	0.5-2Gal/acre

Blending Instructions:

- Building a 12% Liquid Humic solution
 - Mix 1lb of Synergy 95 per 1 gallon of water
- Do not mix with acidic fertilizers or with concentrated liquid nitrogen or phosphate fertilizers.
- For urea impregnation, apply at rates up to 1 gal (3.79 L) per ton.
- When blending with UAN (28-0-0 or 32-0-0), use 1 gal (3.79L) of product per 10 gal (37.9 L) of UAN.
- Shake or agitate container thoroughly prior to use.
- Conduct a small jar test prior to any tank or fertilizer blending.

Product Shelf Life & Storage:

- 3 to 5 years if stored in dry conditions.
- Avoid high humidity and direct contact with water.
- All presentations must be stored indoors at all times

Packaging:

Totes: 2205lbs (1000kgs)

Bags: 44lb (20kgs)
